32-acre DeForest Williams Property, Cold Spring Harbor soon to become the Wawapek Preserve

## MISSION

To preserve and protect, in perpetuity, the green spaces, farmlands, wetlands, groundwater and historical sites of Long Island's north shore for the enhancement of quality of life and enjoyment and benefit of future generations.

## **WHAT WE'RE DOING TO IMPROVE WATER QUALITY ON LONG ISLAND**

We protect land in the special groundwater protection areas (SGPA's) so critical to both the quality and quantity of Long Island's drinking water. We also protect coastal areas, wetlands, sloped and forested areas.

In 2014, we launched a Water Education Program in local schools. This semester alone we will reached more than 1,000 students all over western Long Island. The program focuses on our sole source aquifer, watersheds, ecosystems, native plants (including the life of a seed) and water conservation methods. More information can be found on our website at <http://northshorelandalliance.org/water-education/>

## **HOW LONG ISLAND CAN GET INVOLVED**

The North Shore Land Alliance welcomes volunteers to help with many aspects of our work. Please contact the Land Alliance for more information.
